

HOW THE MODES WORK

Semi: Single trigger pull = single shot (uncapped bps)

TA-Ramp: TA (tournamnet assist) begins after the 3rd trigger pull supplying one extra shot. Then every other trigger pull will add one extra shot. (capped at 15 bps)

B-Ramp: Pull and hold trigger = 2 balls, pull and release = 3 balls, B-ramp is activated on the first trigger pull. Must achieve 4+ pulls per second for B-ramp to start. (capped at 18 bps)

Full Auto: 4 quick trigger pulls and hold on the 4th (capped at 15 bps)

MODE	BPS	LED FLASH	SWITCH 1	SWITCH 2
Semi	18	green	off	off
TA-Ramp	15	yellow	on	on
B-Ramp	18	red	off	on
Full Auto	15	green-yellow-red	on	off
